

SUMEET PATEL

Sr. SOFTWARE ENGINEER - FRONTEND DEVELOPER

+91 7383128210 | sumeetpatelofficial@gmail.com | www.sumeetpatelofficial.com

PROFESSIONAL SUMMARY

Frontend Developer with 10+ years of experience designing and building scalable, performant, and accessible user interfaces using Vue.js, Typescript, NodeJs, React, and Next.js. Proven history delivering front-end solutions across telecom, travel, e-commerce, and CMS platforms, with strong command of component-driven architecture, state management, REST API integration, and micro-frontend systems. Skilled at translating design concepts into clean, production-ready applications while collaborating closely with designers, QA, and backend teams in Agile/SAFe environments. Known for a calm, clear communication style, fast onboarding into new teams, and a consistent focus on problem-solving and user-centred outcomes.

CORE TECHNICAL SKILLS

Frameworks & Libraries: Vue 3 (Composition API), Vuex, React, Next.js, jQuery

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS, NodeJs

UI & Styling: Tailwind CSS, Bootstrap, BootstrapVue, Material UI (MUI), Shadcn ui

Architecture & Practices: Component-Driven Development, Micro-Frontend Architecture, SSR (Vite), Responsive & Accessible Design, RESTful API Integration, Performance Optimisation, Unit Testing

Tools & Platforms: Git, Bitbucket, Agile/SAFe

Design Tools: Adobe Photoshop, CorelDRAW

PROFESSIONAL EXPERIENCE

Software Engineer – Frontend — *Tech Mahindra*

Nov 2022 – Present

- Develop and maintain front-end features across multiple monorepos using Vue 3, Composition API, and TypeScript for a large-scale telecom platform in Germany.
- Build modular, reusable UI components that ensure consistency and maintainability across micro-frontend applications.
- Integrate REST APIs and manage complex client-side state, while implementing server-side rendering (SSR) with Vite to improve performance.

- Follow Agile SAFe practices, actively participating in sprints, PI planning, and cross-team collaboration.
- Write unit tests to validate component behaviour and maintain high engineering standards.
- Collaborate closely with designers, QA engineers, and backend teams to deliver scalable, high-quality software.
- Also done some POC apps on NodeJs and ReactJs

Mid UI Developer — *eRoam Technologies*

Mar 2020 – Nov 2022

- Engineered a Vue.js travel platform for B2B and B2C users to build complete itineraries, including flights, transfers, and accommodations.
- Implemented reusable components and managed complex application state using Vuex.
- Integrated multiple REST APIs using Axios to enable seamless end-to-end functionality.
- Leveraged Vue Router and responsive UI frameworks (BootstrapVue, Tailwind CSS) to build scalable, maintainable front-end architecture.
- Followed Agile sprint practices and used Bitbucket for version control and collaborative development, with a focus on performance optimisation.

UI Developer — *Darshan-softech Pvt. Ltd.*

Mar 2019 – Mar 2020

- Developed responsive web pages for a multilingual e-commerce platform spanning multiple brands using HTML5, CSS3/SCSS, and Bootstrap.
- Collaborated with PHP developers to integrate front-end components with the Smarty framework and built HTML email templates.
- Built reusable UI components, ensuring cross-device consistency and high-quality user experiences.

UI Developer — *Collabera Technology Pvt. Ltd.*

Oct 2017 – Mar 2019

- Maintained an MS SharePoint-based UI for managing candidate data and designed dashboards using HTML5, CSS3/SCSS, Bootstrap, and jQuery.
- Built internal and intranet applications focused on usability, responsiveness, and data accuracy.
- Partnered with recruiters to resolve data discrepancies and integrated SharePoint APIs to ensure accurate onboarding information.

UI Developer — *Sanah Infosolution*

Jul 2016 – Oct 2017

- Built responsive websites and UI components using HTML5, CSS3/SCSS, Bootstrap, and jQuery, integrating with PHP-based systems including CodeIgniter and WordPress.
- Designed layouts and visual assets using Photoshop to support marketing and client-facing web pages.

Web Designer / Web Developer — *Grace & Bless Infotech*

Mar 2015 – Jul 2016

- Began career developing web pages and templates using HTML5, CSS3/SCSS, Bootstrap, and jQuery, working with PHP frameworks such as CodeIgniter and Laravel, and WordPress CMS.
- Built foundational skills in cross-browser compatibility, UI design, and design-to-code implementation.

EDUCATION

Master of Computer Applications (MCA), 2012 - 2015

Narmada College of Computer Application, GTU, Zadeshwer

Bachelor of Computer Applications (BCA), 2009 - 2012

Sardar Patel Education campus, SPU, Bakrol
